

Europacable welcomes definitive anti-dumping duties against OFC imports from several Indian manufacturers into the European Union

Brussels, 17th December 2024

Europacable welcomes the European Commission's decision to impose definitive duties against imports of single mode Optical Fibre Cables (OFC) from several Indian manufacturers into the European Union. With the announcement, the European Commission confirms that injurious dumping has occurred and that protective measures have to be imposed without delay to protect the European industry. The involved companies are subject to duties ranging from 6.9% to 11.4%.

In addition to the anti-dumping measures, the European Commission is also investigating a possible injurious subsidisation which may result in additional anti-subsidies duties to be added to the definitive anti-dumping duties.

Europacable and its members will continue to monitor market developments and may decide to take appropriate action to request the European Commission to increase the level of the duties without delay if uncompliant behaviours are detected.
